

Greenhouse Volunteer

Help our Live Animal team by assisting us in our Greenhouse! You will water, maintain, and care for the plants that are utilized to feed the live animals in our Bug Gallery.

Qualifications

- Love of plants!
- “Green Thumb” or willingness to learn about proper plant care
- Ability to work independently
- Previous greenhouse experience is considered an asset
- Working in an environment with more than 30° C and high humidity (more than 50%)

Responsibilities

- Successfully complete required training
- Water, fertilize, prune and re-pot plants
- Control insect pests
- Adhere to all greenhouse guidelines

Rewards

- Career or interest related experience and skill development in horticulture
- Experience in a greenhouse environment
- Satisfaction of contributing to the bug gallery and the museum
- Access to the Museum’s galleries and exhibits

Time Commitment

- One weekday shift (approx. 3-5 hours) on either a Wednesday or Friday between the hours of 8:30am and 4:00pm
- Minimum commitment of 6 months
